SAME-DAY AND SATURDAY SERVICES

Chris Dental Laboratory (CDL) is a premier full-service dental lab with years of experience in delivering exceptional results to dental practitioners in Maryland. Our state-of-the-art facility and commitment to using only the finest materials and latest technology ensure that we are always on the cutting edge of the industry.

Our technicians are industry leaders in dental laboratory technology, staying at the forefront of the latest advancements through involvement in industry organizations, and participation in nationally recognized seminars and conferences. They are premier performers, dedicated to supporting your dental practice and ensuring the oral health of your patients.

At CDL, we take great pride in our attention to detail and workmanship, ensuring that every product we deliver exceeds expectations. We are committed to providing personalized service to each of our clients, and we stand behind our workmanship with a guarantee of quality. Our passion for dental craftsmanship is matched only by our unwavering commitment to precision and perfection. These three pillars - Passion, Precision, and Perfection - are at the core of everything we do.

Our reputation for fast and accurate turnaround has made us one of the best dental labs in the Baltimore area. We are proud to support the success of many dental practitioners throughout Maryland with our latest dental products. Contact us today to experience the CDL difference and elevate your dental practice to the next level.
